Dear Mr. Hallman:

Your recent scholarship gift of \$1,000 for RCC student Hunter D. Kinsey helps Rappahannock Community College provide excellent collegiate education in our region.

Because you invest in RCC students and programs, the college is able to maintain instructional excellence during unprecedented state budget reductions, now 30 percent in three years. With your help, in these three years, RCC enrolled 28 percent more credit students, increased instructional efficiency by 68 percent, established new programs, and facilitated over \$400,000 in awards for student financial aid. Your support enables us to serve more individuals, with greater quality and effectiveness.

As RCC continues to grow in size and reputation, and state support now slips below 50 percent of the cost of educating a student, your contribution is more important than ever. Thank you for demonstrating your support for our college's efforts.

With best regards,
